The indepen No public man ever went to Washing dent hard money congressional can didate supported by the democracy was beaten in the mird district, where the Dutch have again taken Holland. form and economy in congress and throughout the country has been encouraged and strengthened.

The new legislature will elect an Uni ted States senstor whose term will last until March 4, 1879. Nobody on the democratic side will contest the claims of Mr. English to be his own successor, and e little commonwealth is therefore sure of having two very able representa tives in the upper house of the national legislature, and the south is also sure of having in them two true and tried fr ends.

Gov. Inger-oll, who has just been elected for the fourth time is now about fifty-four years old. He belongs to the 'old blood" of the Nutmeg state. His father, Ralph T. Ingersoll, was American minister to Russia under the Van Buren administration. Gov. Ingersoll is widely known as a geatleman of a high culture, and his character for integrity and political consistency is also recognized by all parties. He was born in New Haven, where he has resided all his life. An able lawyer and a fluent speaker, this popular and invincible leader of the Connecticut democracy has a bright future before him.

This brilliant victory in Connecticut is an assurance that New York and New Jersey may be relied on next November; for the three states in a common political struggle have of late voted alike. Add to these the solid south, the Pacific slope and Indiana, and we have a good man gin for losses, with victory an absolut certainty. But this presupposes judinominations at St. Louis That all our readers accurately appreciate the results of the ate election in Connecticut, we give the vote for governor for the past three years. with the sole explanation that Gov. Powell and Murphy vs. A. M and F. T Weaver. Claim, from Mor WARNER, C. J.

The only question made in this case, is whether the affidavit of the plaintiffs to foreclose their crop lien against the detendant, was in compliance with the re uirement of the statute. The court be held that it was not, and dismissed the plaintiffs' levy, whereupon the plaintiffs excepted. It is alleged in the affidavit of foreclosure, that the defen dant was indebted to the plaintiffs the sum of \$98 00 for supplies furnished to make a crop for the year 1874, and to save them from loss, gave them a lien under section 1978 of the Code of Geor gia, upon her crops of cotton, corn, etc. sed during the year 1874. which said lien was dated the 1st day of January, 1874 The point of objection was, tha it was not alleged in the affidavit that the lien was in writing. One of the conditions prescribed by the 1278th section of the Code, in order to make a valid lien under that section, is, that it must be created by special contract in writing The only pleading required in this summary reactly to foreclose a crop lien, is the affidavit of the plaintiff, consequently that affidavit should allege all the facts which

at the races which it is necessary for the plaintiff to prove at the trial, to constitute a valid lien under the statute, and if all the facts necessary to constitute a valid lien are not alleged in the affidavit, it is a good ground of demurrer thereto. Inasmuch as it is one of the conditions of a valid crop hen, that it should be created by a special contract in writing, that fact should be alleged in the plaintiff.' affidavit, and that not having been done in in this case, the demurrer thereto was properly sustained by the court. It loes not necessarily follow from the ellegation in the affidavit that the defendant gave the plaintiffs a liet under the 1978th section of the Code upon her crops etc, that the conditions prescribed by that section had been complied with, so as to constitute it a walid lien. The lien may have been taken under that section of the code, and still not have been taken in accordance with the terms and con

litions required by it.

This was a bill filed by the complain ant against the defendants, praying for the ression of a contract set forth therethe ression of a contract set forth therein, and also praying for an injunction, and the appointment of a receiver. A temporary order was granted until the hearing, and Sibley was appointed receiver to take charge of the property, and to hold the same until the further

To the granting of which order the defendants excepted. There is nothing in this case to take it out of the general rulings of this court, that it will not interfere to control the that it will not interfere to control the discretion of the chancellor in granting the injunction, or the statement of facts contained in the record, except that part of the order which directs the receiver to sell a sufficient portion of said crop now on hand to pay James M. Dye, the complainant, four hundred and twenty-sayen dollars, the amount claimed to have been advanced by him. We are not aware of any law, which would have authorized the chancellor, to order the receiver to sell any portion of the propthat it will not interfere to control the receiver to sell any portion of the property in controversy for the beaefit of the complainant, until the final hearing of the case on its merits. Faver vs. The State. Murder, from Coweta. WARNER, C. J. The defendant was indicted for the o fense of murder, and on his trial there-for, was found guilty. A motion was made for a new trial on the several

grounds therein set forth, which was overruled by the court, and the defend ant excepted. This is the second time this case has been before this court no doubt then that the defendant was guilty of the offense with which he was charged, but granted a new trial on the ground that the verdict did not specify which of the two defendants, who jointly indicted, was found guilty. We entertain just as little doubt now, as we did then, of the defendant's guilt from the evidence contained in the record, and as we find no material errors committed on the last trial of the case, which mitted on the last trial of the case, which ought, or should set aside the verdict of the jury, we affirm the judgment of the court below in overruing the defendant's motion for a new trial.

Judgment affirmed. P. F. Smith, for plaintiff in error. T. W. Latham, solicitor general, for

Martin, administrator, vs. Tweedle.

Claim, from Carroll. WARNER, C. J. This was a claim case, on the trial of which, the jury found the land levied on not subject. The plaintiff made a motion for a new trial, on the ground that the court erred in rejecting as evi-

dence, a bill of injunction offered by the plaintiff from the district court of the United States, and because the court erred in refusing to allow the plaintiff to ask the witness, Johnson, who had purchased the land from the defendant in fi. ia., and sold it to the claimant, "It he did not procure or influence the defendant to go into bankruptcy?" Because the court erred in refusing to allow the plaintiff to ask the witness, Johnson, the following question: "If he did not ask and influence the defendant, Blackman, land levied on in his schedule, and ob tain an injunction as to this fi. fa., and

the errors complained of in the motion

for a new trial which the court overruland the plaintiff excepted. injunction strain the plaintiff from levying his fi fa on the land, and therefore there was no error in rejecting it as evidence in this case. There was no error in the whether he did not procure or influence the defendant to go into bankruptcy Whether the witness did procure or influence the defendant to go into bank ruptcy or not, was not a relevant ques-tion, going to illustrate the issue on trial without more. The other question, in view of the facts of the case, the witness in our judgment should have been re- Pending an application for home-stead, which is resisted by a judgment creditor, who holds an absolute deed for quired to answer. The question was the premises that, if valid, will defeat the application, which deed is attacked fendant, Blackman, to go into bank ruptcy and embrace this land levied on in his schedule, and obtain an injunction for usury by the applicant, a sale of the land by the sheriff to satisfy the judg-ment, should be enjoined until the right as to this fi fa, and thus have it restrained?" The claimant sought to be protected, as against the plaintiff's judg protected, as against the plaintiff's judg-ment, on the ground that he and John-

son, under whom he claimed, had been in possession of the land for four years, as bona fide purchasers for a valuable consideration. The claimant relied on the possession of Johnson to make out the four years possession as required by the 3583rd section of the Code, he having had from Fayette. BLECKLEY, J. section of the Code, he having had possession of the land but a short time. The witness, Johnson, stated that he had notice of the judgment against the defendant, Blackman, when he purchased the land from him. The judgment against Blackman was obtained on the 10th of October, 1887. The deed from Blackman to longer to deted 2 prod of Lukeman to longer to deted 2 prod of Lukeman to longer to the control of the man to Johnson is dated 22ad of July, 1870, and the deed from Johnson to Tweedle, the claimant, is dated the 4th Tweedle, the claimant, is dated the 4th of February, 1875. The plaintiff's fi fa was levied ou the land 24th of August, 1874, nearly six months prior to the date of the claiman 's deed from Johnson's possession of the land, to make out his case under the statute. The question then was in regard to the bona fides of Johnson's possession. Was he a bona 2. Johnson's possession. Was he a bona tide purchaser of the land from Blackman, for a valuable consideration? If Johnson did influence Blackman to go into baukruptcy and embrace the land levied on in his schedule as such bankrupt, that would be exidence coing to show that would be evidence going to show that Johnson regarded the land as being the property of Biackman, and not his, Johnson's, property. It the land belonged to him, Johnson, why should he have advised or influenced Blackman to return or embrace it in his bankrupt sch dule as his. Blackmar's, property? The question propounded to the witness was a pertinen, relevant one to the issue on trial, in as much as it was intended to show that the purchase of the land by Johnson from Biackman was no: bo fide, and for a valuable consideration, as

to templated by the statute.

son, John W. Sinson, executor of estate of John Stinson deceased."

On the trial of the case, the plaintiff offered and read the note in evidence, and also a copy of the last will and testsment of John Stinson deceased, in which he directed that his wite should keep the Phillip's place, where she then lived, as long as she did live, and for her to have everything there, that was necessary for her and the children to be comfortable and pleasant. The testator appointed his con, John W. Stinson, his executor, with power to sell any part of the estate, when he might think it best for his wife and children. McFarlin, sworn as a witness for plaintiff, stated that when the money was loaned, for which the note was given, John W. Stinson stated that it was for the use of the estate; that they had, or were putting up, a water-gin on the place, and that it up, a water-gin on the place, and that it had cost, or was costing, them a good deal of money. When the testimony for the plaintiff was closed, the defendants counsel made a motion for a nonsuit, as to the administrators de bonis non on the estate of John Stinson, deceased. The court sustained the motion, and the plain-tiff excepted The only question in the case, therefore, is whether John W. Stinson, as the executor of John Stin-son, deceased, could bind the estate of his testator by the execution of the note and testator by the execution of the note sued on, so as to make the assets thereof liable for its payment? It is undoubtedly true that the assets of the estate of a deceased testator are liable for the payment of the debts and obligations contracted by him in his lifetime, but it would be a novel and described the state of the debts. dangerous doctrine to hold that the as-sets of the decessed testator could be made liable for the contracts made by his executor, a ter his death; so danger-ous to the estates of deceased testators, that the law does not allow it to be done. An administrator or executor can only bind himself by his contracts; he cannot bind himself by his contracts; he cannot bind the assets of the deceased. Therefore if he make, indorse, or accept negotiable paper, he will be held personally liable, even if he adds to his own name, for cultivation, do not abate on the death the name of his office, signing a note, for example, "A, as executor of B," for this will be deemed only a part of his description, or will be rejected as surplusage—1st Parsons on Notes and Bills, 161; Levelace vs Smith et al, 39th Ga.

-On Wednesday last a very important inecting cocurred at the Magnolia house in this place. It was a gathering of the planters of the Atamaha river. Its primary object was to consider the reduction of wages now being paid to agricultural laborers on the rice plantations. It is a fact that the rice plantations are represented by natural causes, namely: the competition for labor in the timber interests of this vicinity. The gentlemen composing the meeting of planters each in their turn gave "his experience," and we, who are not of the initiated, listened with great interest to the utterances of those who may be ably termed the successful planters of the Altamaha through the last five years of trying experience in that department. THE HOMESTEAD DECISION.

The measure of relief to this people, afforded by the recent decision by the supreme court upon the right of waiver residing in the head of a family, is so great as to justify every allusion to it which will make it clear to every understanding and fully inform the public of its paramount force and effect

its paramount force and effect

When Judge Lochrane was chief justice of our supreme bench, in the case of Toliver vs. Fyd. 44 Ga. 628, he uttered an obtar di tun upon the point embraced in the recent decision, to the effect that the waiver of a homestead by the husband was binding upon the wife and minors. At that time he had no doubt upon this point and his opinion is contained in the record of the case in the volume of reports above cited. The recent decision shows him to have fully grasped the principle in the question and the judge has reason to feel prou of the slow but sure agreement.

IN THE FEDERAL COURTS.

the judge has reason to feel prou of the slow but sure agreement.

Judge Erskine, of the United States district court for Georgia, on the last day of January. 1873, some fifteen months ago, announced the same principle as holding good in his court in bankrupt cases. The case in point was:

In the same w Alexander sr. James w Alexander, bankrupt, vs. Reuben w Willmans, shertif, and Bird & Robinson, et al.—No. 1120.

In bankruptey. Petition for injunction. Temporary injunction granted. Motion to dissolve temporary injunction. ER-KINE, J.

FR-KINE, J.

It is not pretended that the deb' for which the mortgage was given was not founded upon a valid consideration. When the bankrupt made the mortgage he directly and in unequivocal words waived his right to a homestead in the land, etc., conveyed in the deed of mortgage. But it is said the wife did not concur in the

But it is said the wile did not concur in the act,

act,

Under the decisions of the state supreme court

(Woolfolk vs. Murray, 44 (ca., 123 and Lumpkin vs. Easey, id 339) it was held that there is no right of property in the family until the homestead has been laid off.

The view of the subject of waiver of home stead presented by Lochrane, C. J.,

(Tollver vs. Pry. 41 Ga., 6c.3) is, I think, the true and legally correct one. Any other determination would be subversive of fair dealing. The waiver here was, so far as the record shows, a free and voluntary act ou the part of the mortgagor. And it is a significant fact, that the petition is in the name of Alexander by his attorney, Hart, and sworn to Hart, and not by Alexander. This fact e caped the notice of the judge in granting the writ of injunction. It is ordered and adjudged that the injunction be and it is hereby dissolved.

MASH-TUB CRUSADERS.

High-Handed Outrage by: Marsha Goodwin-The Court Has Got to Be Greased - More 'Plaints

By Prisoners. There are well defined rumors upon the treets that the United States grand jury yester-ay obtained the testimony upon which to

out note that one indictment against deputy marshals involved in the transactions which have outraged our people and brought down odium upon the department in charge of the marshal. We are not it liberty, for reasons readily understood for sate all the facts in those cases, but will do so in due time. The grand case of the case in the sate of the case juy is a very intelligent body and extrying to do its whole duty, and we trying to to to sown percogatives and it will accomplish something good of the state and the Witnesses are daily being brough them, both from the city and abrumas of testimony has been elicited.

an accusation of crime, but it all is of enough importance to show to the marshal, or, in his default to remedy it, to the judge of the court, that a change is needed in the persons who fill several of the offices of deputy masshals.

Many well. THEIR MOUTHS ARE SEALED.

Many witnesses who could prove all the essary allegations to convict more than deputy marshal of these crimes bribery and extortion, say to us that it mouths are closed before a grand jury, bec of several considerations, but that before a quest where men may be sworn to tell they and may be punished for perjury they can will unfold the mourt-destiling record the be imagined. We know of several of these tices and some what of their knowledge, and to give longue to these classes of witnesses

HE WANTS TO SQUEAL. The reporter was approached yesterday with positive information that one of the ladenuty marshale is ready to unbosom himse and let day-light in upon the wicked and corupt transactions of "the ring." He was or of the trusted tools of the gang at one time an we are satisfied that he knows enough to provide the same transactions of the same at one time and the same are satisfied.

A QUESTIONABLE MATTER. A QUESTIONABLE MATTER.

We had hoped there would be no complaint against the district attorney during this twestigation, but his actious in remaining in the grand jury room, conducting the examination of witness as though before a court add jury, and giving shape to the testimony adduced materials do it upon the streets as improper. It is understood that some of the grand jury themselves doubt his right to do these things.

GOODWIN ON THE SHOOT! We present here a most outrageous affair which deserves and will receive the prompt a on the 7th ult, Mr. B. J. Hutchins, a worthy uiet and reliable gentlemen connected with

On the 7th uit, Mr. B. J. Hutchins, a worthy, quief and reliable gentlemen connected with the house of J. L. Winter in this city, and Mr. Smith, of the house of Moore & Marsh, also of this city, were coming from Chattanooga on the evening train of the Western & Atlantic rairoad. They were sitting at the rear-end of the second-class car, which was nearly empty. At Cartersville Mr. Smith stopped to be rear platform a moment. Alarshal W. L. Goodwin, with some thirty guards and prisoners, entered at the front end of the car. Goodwin came to where Messrs Hutchins and Smith had their seats turned face to face. Goodwin started to turn Smith's seat back, when Mr. Hutchins requested him not to do so, as it was occupied by a gentleman just stepped to the door. Good win insisted and Mr. Hutchins held it downwhereupon Goodwin JERKED OUT A PISTOI "Give me that seat, or I'll blow the G—d cap off your d—d head!"
Mr. Hutchins replied that he was not armed that he would vacate the seat and car. He

and that he would vacate the soat and car. Free did so.

Mr Smith and several others were witness to the fact that Goodwin refused to give his name to Hutchins when asked for it.

All the above facts will be sworn to by the parties, and we understand that Goodwin will be prosecuted before Bartow superfor court to the fullest extent of the law. The out age is all the more aggravated because unnecessary, for neither of the seats vacated by Hittchins or Smith was occupied by either Goodwin or any of his party during the run down to Atlants.

Some time last summer Dr Hardin, one of the best citizens of Pickens county, was arrested and carried to Cartersville. He was arrested by Goodwin and charged with some frivolous violation of revenue laws. He gave bond for a hearing before Commissioner Aaron Collins, who said there were no witnesses then present. He returned to Cartersville at the appointed time; still no witnesses, another time set for the hearing. Again he returned; again no witnesses; again the commissioner told him he could not have a hearing until a future day. About five minutes after this positive assurance could not have a nearing unful a future day, out five minutes after this positive assurance Collins, Dr Hardin was approached by Jack nn, the "go-between," who said to him in stance: "Doc., you might as wen pay cut of now ss at any other time. You see, the rt wants to be "greased." They will devil

you to death bringing you to and Iro, and all they want is a little money, with which I think I can fix them sai right."

Dr hardin weighed the annoyance, loss of time and money and the uncertainty of these men's oaths, and concluded to risk it.

Glenn said \$100 would do the work and the doctor handed him that sum. A few minutes of the right weight of the conclusion of the right of the conclusion of the right of the conclusion. doctor handed him that sum. A few minuteafter Glenn returned from consultation with
Collins and Goodwin and said it was "ail
right." A quarter of an houlater boctor Hardin was called into Aaron Coitus' court. It seemed to have been "greased"in
the meantime, for now it went along as smooth
as a mirror. The case was called, no witnesses,
found present and Dr. Hardin was dusnissed.
He has never heard of the case since. This, too,
occurred not half an hour affer the commissioner had positively said he would not give Dr. H.
a hearing until a rather distant future day, on
account of the absence of witnesses.

G W Smathers says that Deputy Marshals Taylor, Cobb and Chandler are running illicit distilleries upon their own account.
Cobb owns a still which is run by Jim Dyer, and gets his share of the whisky made there whenever he wants it. He owns another which is run for him by Bill Hinson, who says he is not afraid to own it and dares them or any other officer to ar est him as he can prove that the still is run under Cobb's instructions.
Mr. Smathers also says that Tomp Collins paid Cobb and Chandler §75 to settle a case, and that John C. Collins saw the money paid Also, that James Hunter paid them \$100 hush money and B. Swimn.s paid them \$0, to which factly archey Nix, Mich Swimms, James Hunter and Tomp Coilins are witnesses.
Also, that Taylor Cobb captured forty gallons of whisky from Mr. Godderd and only turned over nine gallons to the United States.

COMING IN A PLOOD,

COMING IN A FLOOD, COMING IN A FLOOD,

The tales of outrage, wrong, oppression and corruption by these deputy marshals are coming in by hundreds from sil quarters, and they would, if printed and bound, make a larger addition of volume, filled with more horrible stories than all the "ku kiuz" reports ever printed. We desire such and as will lead to the detection of the guilty parties. We want the testimony upon which they can be convicted, and we look to our friends in North Goreau to supply it.

MOUNT DE CHANTAL Academy of the Visitation NEAR WHEELING, W. VIRGINIA.

NAME WHEELING, W. VIRGINIA.

PARENTS in quest of a first class school for their daughters, will do well to investigate the cisims of the celebrated Academy. For thoroughness in every department of female education, Mt. de Chantal ranks pre eminently high. Great attention is given to erfect the jupils in writing and speaking Freuch with fluency. For those sufficiently advanced, it is the language of their recreation hours. The purity of accent and correctness of pronunciation acquired in this Institution have long been a subject of surprise to the native Parisian. The renown for the superiority in music is so wide spread as to have made this Academy almost a national one. One feature, in particular, that should recommend Mt. de Chantal to the sensible parent, its the influence exercised to form the pupils to views and habits of economy, and to render them really practical and useful woman of society in after years. Simplicity of dress is enforced by rule.

in after years. Simplicity of dress is enforced by rule.

These fa ts, united to the exceedingly moderate rates of board and tuition (\$200 per anuu n), will, we trust, secure to this school as large and desirable a patronage in the future as it has enjoyed in the past For further particulars, apply for a prospectus to the Directress of Mount de Chantal Academy of the Visitation, near Wheeling, West Virgiria. FRONGIE Ammoniated Super Phosphate. ADAIR& H CONTINS BY ANALYSIS.

The above fertilizer is the highest standard made and sold in this country, as is shown by analysis above, made by the best

Chemists now living. The Phosphate of lime in this compound is from animal bone, not rock phosphate, and is therefore more valuable, being taken up and assimilated more readily by the roots of the plants. It is dry, fine, and light, containing much less moisture than is usually found in commercial manures. It is cheaper than other fertilizers

which cost less per ton, because it contains more valuable mate rial to the pound, and will go on more ground. 400 tests made last season, and testimonials of the highest char

acter can be shown. 100 tons will arrive next week.

On Wednesday last a very important meeting occurred at the Magnolia house in this place. It was a gathering of the planters of the Altamaha river. Its primary object was to consider the reduction of wages now being paid to agricultural laborers on the rice plantations. It is a fact that the rice planters of this river pay higher wages than any other agriculturists in America. This has been brought about by natural causes, namely: the competition for labor in the timber interests of this vicinity. The gentlemen composing the meeting of planters each in their turn gave "his experience," and we, who are not of

PARENTS in quest of a first class school for their daughters, will do well to investigate the claims of the celebrated Academy. For thoroughness in every department of female education, Mt. de Chantal ranks pre eminently high. Great attention is given to erfect the jupils in writing and speaking French with fluency. For those sufficiently advanced, it is the language of their recreation hours. The purity of account and correctness of pronunciation acquired in this Institution have long been a subject of surprise to the native Paristan. The renown for the superiority in music is so wide spread as to have made this Academy almost a national one. One feature, in particular, that should recommend ht. de Chantal to the sensible parent, is the influence exercised to form the pupils to views and habits of economy, and to render them really practical and useful woman of society in after years. Simplicity of dress is enforced by rule. NEAR WHEELING, W. VIRGINIA.

CONTLINS BY ANALYSIS. The above fertilizer is the highest standard made and sold in this country, as is shown by atalysis above, made by the best Chemists now living.

The Phosphate of lime in this compound is from animal bone, not rock phosphate, and is therefore more valuable, being taken up and assimilated more readily by the roots of the plants. It is dry, fine, and light, containing much less moisture than is usually found in commercial manures. It is cheaper than other fertilizers which cost less per ton, because it contains more valuable mate rial to the pound, and will go on more ground.

400 tests made last season, and testimonials of the highest character can be shown.

100 tons will arrive next week. C. H. STRONG, Agent, feb19-dtf
